5. Artwork File Preparation / Transfer

5.1 All artworks should be saved into individual files and according to each order.

5.2 All artworks must be sent to Q8 PRINT through the Internet or by courier service. Please download artwork specifications from our website to learn how to prepare file for uploading.

5.3 Due to the different colour displays on various monitors, printed colour of end product may differ from what appears on screen. Therefore Q8 PRINT will not be responsible for colour discrepancies in the end product as a result of member's reliance on the said colour displays instead of Q8 PRINT's CMYK Colour Reference manual to set his/her colours for output.

5.4 Q8 PRINT uses international colour measurement standards (densitometer) and has a process colour combination tolerance of ± 0.10 density. While we do not guarantee exact colour match of your artwork or reprints, we endeavour to minimize colour inconsistency in output by applying DeltaE 8 (a printing standard to measure CMYK colour combination consistency). To ensure DeltaE 8 standards are met in all our products, our QA department utilizes an X-Rite Densitometer colour measurement machine. We are one of the few printers in Malaysia that are equipped with this state-of-the-art tool.

5.5 To avoid delays or inconveniences, Q8 PRINT Members are advised to check that their artworks comply with all Q8 PRINT standard specifications, setting and format.

5.6 Auto Preflight Process

Before ordering, all members are required to upload their PDF/artwork file for inspection by Q8 PRINT's auto preflight software which comes embedded in the artwork uploading module to ensure compliance with our selected PDF quality specifications.

5.6.1 Auto Preflight will only check for the following common errors encountered in PDF files:

- i) Missing Font
- ii) Uncurve/Unpath Font
- iii) Resolution below 300 dpi

(Last update: September 29, 2009)

iv) Artwork contains RGB and/or PANTONE

5.6.2 The auto preflight process cannot be considered as the final stage of PDF/artwork file checking and Q8 PRINT by no means acknowledges it as a complete solution for checking PDF/artwork files.

5.6.3 All PDF/artwork files that have been inspected by auto preflight will be stored on the Q8 PRINT server for a maximum of 72 hours. After which, Q8 PRINT will remove PDF/artwork file from server.

5.6.4 Unless otherwise stated or informed, Members are required to make the necessary corrections to the errors on their PDF/artwork file as reported by auto preflight. Q8 PRINT will not accept responsibility for any consequences that may arise as the result of Member's failure to make the necessary corrections before output.

5.6.5 All amended PDF/artwork file are required to go through auto preflight process again.

5.7 Job Pending Cases

In the event Q8 PRINT detects that Member's submitted artwork for printing does not comply with Q8 PRINT artwork setting standards:

5.7.1 Q8 PRINT will put that particular order in the "Pending" list, which *means* the job is on hold until correction is made by the Member. Q8 PRINT will inform that Member of the problem via email within 2 hours after receiving order. (Orders that are submitted close to closing time will only be screened the following day, and if a problem is detected, pending notice will only be forwarded to Member after 9am on that same day).

5.7.2 After job pending notice is sent to Member, that Member is required to resend artwork through email or FTP. Member is given a grace period of 14 days from receiving job pending notice to correct and complete order. (Note: delivery date of order will now depend on when correction is received by Q8 PRINT.)

5.7.3 If there is no response or no correction is made by Member within 14 working days after Member receives pending notice, Q8 PRINT will not proceed with that specific order and as such, 20% of the advance payment for the printing fee of that order will be deducted as handling charge, and the balance shall be credited back into that Member's account.

5.7.4 If Member insists on proceeding to print without making recommended corrections highlighted in Pending Status, Member does so at his/her risk. Q8 PRINT cannot be held responsible for outcome of printout.

5.7.5 If a Member makes an error while placing his/her order, for example: accidentally submitting the same order twice, that Member must call to inform Q8 PRINT Customer Service immediately. Q8 PRINT will not be responsible for any consequences arising from that Member's failure to inform customer service immediately.

5.8 Q8 PRINT cannot be held liable for any consequences in the event an artwork error goes undetected.

5.9 Artwork sent must be in a single layout. Any imposing of the artwork will be done by Q8 PRINT.

5.10 No changes can be made to the artwork once submitted to Q8 PRINT for printing. Only amendments required to correct and complete pending jobs will be accepted.

5.11 Q8 PRINT Members are required to resend artwork for every repeat order.

5.12 Q8 PRINT is not responsible for Member's copyright infringement of artwork content.

5.13 Q8 PRINT will not print jobs that contain offensive literature or images.

6. General Expectation on Printing Outcome

6.1 Colour reproduction or accuracy is generally subject to the limitations of gang-run printing method. Therefore, the accuracy of colour reproduction is NOT guaranteed as stipulated in our Colour Disclaimer (clause #7).

6.2 Q8 PRINT assures you that the colour reproduction & consistency of every piece of your product printed in the same batch will meet DeltaE 8 requirements. We cannot be held liable for colour variations between jobs printed in different batches at different ordering periods.

6.3 Tolerance of the cutting edge is +- 1.5mm.

6.4 Printed surface dotted with dirt shall not be more than 1 dot per 5cm² and the dot shall not be bigger than 0.3mm.

(Last update: September 29, 2009)

6.5 While Q8 PRINT will take every caution when handling pressure sensitive materials like carbonless copy paper (NCR), we cannot guarantee that they will be completely free of markings after print.

6.6 For products with Spot UV finishing, tolerance of registration is ± 0.25 mm. Member may not reject order if Spot UV defects affect only 2% or below of the printed quantity per order.

7. Colour Disclaimer

In order to provide a cheaper end cost to our members and a quicker turnaround of the printed matter, Q8 PRINT groups together CMYK work. This form of printing referred to as "gang-run printing" or "batch printing" is used for the printing of

Q8 PRINT's standard products and marginal variations are to be expected from one print run to another. As such, while we take great effort to match colours as accurately as possible, we cannot be held liable for these marginal colour variations or inaccuracies in the printed matter which may be more evident in reprints. A 100% exact colour match is not possible. The most accurate means of colour matching entails printing the job in isolation (entire-run print) as a standalone job. This means of printing should be supported by contract proofing and will result in the print cost of the job being significantly greater.

8. Product Refund / Reimbursement

If you are not satisfied with any product, please e-mail Customer Service within 7 working days of receiving your order. Please include your Member number, order number and reason for dissatisfaction. If you have not received your order within the specified delivery time, please contact Customer Service (FEEDBACK) not later than 7 working days from the date of the specified delivery time. Our Customer Service department will review your complaint and work with you to meet your expectations. PLEASE NOTE: We will only reprint or refund the cost of any print job that fails to meet the conditions under the General Expectation on Printing Outcome (Terms & Conditions, clause #6). However, we are not responsible for typing, image, or design errors introduced by customers in the artwork/document creation process. In an effort to keep costs down and pass those savings along to our customers, Q8 PRINT does not review artwork/documents for content or spelling. In no way shall either Q8 PRINT or its subsidiaries, officers, directors, shareholders or employees be liable for any special incidents, indirect or consequential damages, mistakes or rejects of any kind whether or not the party has been advised of the possibility of such damages or rejects arising out of or related to an Q8 PRINT Member's action(s). The terms and conditions constitute all terms and agreements relating to Members participating in the Q8 PRINT Member Program.
